Shayna Leib Photography offers rights-managed image licensing for editorial, educational, and institutional projects, with a focus on marine natural history and macro photography of marine invertebrates.

### Common Uses Include:

**Editorial:** magazines, newspapers, online articles, books, documentaries, and digital publications

**Educational:** academic publications, museum displays, presentations, interpretive signage, and educational materials

**Commercial:** advertising, marketing, promotional campaigns, and corporate communications

Licenses are tailored to the intended use, distribution, and duration of each project. All images are protected by copyright and may not be reproduced or distributed without written permission.
